2028 IS JUST TOO LATE!

THE TRUMP FASCIST REGIME MUST GO NOW!

IN THE NAME OF HUMANITY, **WE REFUSE TO ACCEPT** A FASCIST AMERICA

In the 2026 midterm elections, millions rejected Trump's cruelty, hatred, and fascist agenda. This massive rebuke has lifted some of the despair and renewed a sense of hope. **The hope awakened by this election must not give way to the dangerous illusion that the horrors millions voted against can be ended through the normal workings of the very system that has kept this fascist regime in power.**

There is no living with this fascism. The stakes are far too high to wait until 2028.

Trump still rules by executive fiat, backed by a fascist Supreme Court. Behind this regime stands a movement decades in the making, backed by big tech and Christian fascists determined to impose a white supremacist, patriarchal society through force and fear.

And these fascists are not backing down. They are doubling down.

This electoral defeat has created new urgency for them to finish what they started: crush dissent, accelerate its fascist program, and further lock down its power. **If an electoral defeat alone could stop fascism, we would not be living through Trump's second term now.**

The regime continues to terrorize immigrants, disappear people into concentration camps, and criminalize dissent. Stephen Miller, architect of Trump's mass deportation program, has been elevated to Chief of Staff. Trump's National Security Presidential Memorandum 7 threatens anyone who opposes them with prosecution as domestic terrorists. His illegal war on Iran has brought horrific death and destruction, with threats of even greater catastrophe.

This is not politics as usual. This is fascism.

The forces driving this fascism remain: intensifying global rivalries, devastating wars, climate catastrophe, and profound social changes. MAGA offers dictatorship, white Christian supremacy, and brute American power as the answer to these crises.

What is needed now isn't a fight for affordability but a fight to STOP a fascist America.

The Democratic Party reduces this whole fascist assault to a fight over affordability, domesticating righteous anger and channeling people into waiting for the next election. Trump shreds the rules and norms, while Democrats insist on playing by them and seeking common ground with the fascists. Nor can we rely on the courts when the ultimate judicial decider will be the fascist-stacked SCOTUS.

There needs to be a political movement that understands fascism must be *profoundly repudiated*, and therefore demands the removal of the Trump Fascist Regime – and settles for nothing less. You are needed now to make TRUMP MUST GO NOW seen, heard, and felt across this country.

In a world of deepening crises, many things could happen that today seem impossible. A step too far by this regime could bring millions into the streets in nonviolent resistance. If people are led to sustain the struggle and not back down from their demand for the removal of the Trump regime, it could create a political crisis that compels those in power to remove this regime through lawful means.

Now is the time to act with courage and conviction, step up our resistance against the regime's outrages, and challenge the illusion that fascism can be accepted or accommodated.

Join and build Refuse Fascism, a movement that demands the removal of the regime.
