

The #OUTNOW Movement Has Been Born **Now It Must Grow By Leaps and Bounds** **to Achieve This Demand:** **Trump/Pence #OUTNOW!**

At a moment of escalating catastrophe for humanity and the planet posed by the Trump/Pence fascist regime, RefuseFascism.org launched a bold new effort: the #OUTNOW Movement. Only a massive, nonviolent struggle by the people that does not stop until the Trump/Pence regime is removed from power can put an end to this regime's concentration camps at the border; its accelerated environmental destruction; its war on reproductive and LGBTQ rights; its open white supremacy; its casual threats of war – **even nuclear war; and its destruction of the rule of law and separation of powers.**

Through a five week launch of national protests, we put the call for Trump/Pence #OUTNOW! on the map, advocating for and modeling the fundamental truth that only mass sustained, nonviolent protest across the country can stop the nightmare of the Trump/Pence regime. We reached millions through coverage on CNN, Newsweek, Washington Post, and elsewhere. The weekly #OUTNOW protests were diverse in every way. New cores of committed leaders are emerging. Religious leaders, artists, musicians and other anti-Trump organizations have begun conversations with #OUTNOW! as to how to go forward to remove the regime.

The challenge now is to work with all those who participated and many thousands of others to solve the big problem that no one has solved as yet: *How to move hundreds of thousands and ultimately millions into the streets in sustained non-violent protest in cities and towns across the country?*

This challenge was taken up by more than 250 people at recent national #OUTNOW organizing meetings. We forged bold plans for a month of December Disruptions to take this movement higher and build towards the time when we can move millions into the streets in nonviolent protest that does not stop until the Trump/Pence regime is removed from power.

Your generous donation is critical to taking this precious beginning forward, turning dread for the future into a force of hope for humanity. **[Donate.RefuseFascism.org](https://www.refusefascism.org)**

The image of #OUTNOW in front of the Trump Tower has to be seen all over the world. This regime should not go on one day longer, 2020 elections are too late.

We're not here to follow that routine of assemble, march, go home and live your life. We have to get out and stay in the streets, disrupt business as usual, not only for ourselves but because humanity demands it.
