**Mass Protest

Trump is a demented bully with his finger on the nuclear trigger – brazenly ratcheting up the danger of war from North Korea to the Middle East. Immigrants are terrorized and children are still separated from their parents. The Supreme Court sits on the verge of a pro-fascist majority, making it a fully pliant tool in the Trump/Pence regime's drive to ratify, protect and enforce its agenda. This regime is advancing a program to: "Make America WHITE Again;" impose a Christian fascist theocracy; accelerate the environmental destruction of our planet; deprive women of abortion and birth control; slam LGBTQ people backwards; and as a concentrated manifestation of fascism, strip away the right to dissent and eviscerate civil rights and civil liberties. All that and more, and far worse *for generations to come.*

We Must Not Wait to Act.

**In the Name of Humanity,
We REFUSE to Accept a Fascist America!**
