

Even with a Democratic House, We Must Be In the Streets

TO DEMAND AND DEMONSTRATE OUR DETERMINATION THAT:

***IN THE NAME OF HUMANITY,
THE TRUMP/PENCE REGIME MUST GO!***

Protest Nationwide • Saturday November 10

[1] The most defining thing about these recent elections is that the fascist program of the Trump/Pence regime became more consolidated and its fascist social base was more fully unleashed. Pipe bombs sent to leading Democrats and CNN. A hideous antisemitic massacre. Racist murders of African-Americans. Vicious anti-immigrant lies of an “invading caravan” to be met by U.S. troops who Trump said should shoot if the refugees throw rocks. Trump whipping up his rallies – Nuremberg style.

On top of two years of the regime eviscerating what are supposed to be civil and legal rights, banning Muslims, locking in a majority fascist Supreme Court, stoking violent white supremacy and xenophobia, hateful misogyny, and ripping up international alliances and ramping up the threats of war.

The Trump/Pence regime and the forces within it have said they view this presidency as the “last chance” to secure their vision for this country. This will continue and grow worse – with Trump now firing Sessions, attacking reporters, doubling down on his racist nationalism – unless and until it is stopped by the masses of people acting in fierce and sustained opposition outside the confines of politics as usual.

[2] **The Democrats winning a majority in the House did not change this.** The Democratic opposition throughout the elections and Nancy Pelosi’s post-election speech, refused to confront Trump’s fascism, but instead *normalized, accommodated, and then promised to collaborate with the regime that is bringing an American fascism.*

About the Democrats, it could be said: ***“First they came for the Muslims, and I protested once and then let it happen... Then they came for the immigrants, and I voted for healthcare and stayed mum.”*** They are determined to maintain

>>>>>

order – even if that is the order of fascism – rather than risk the instability that it would take to confront and drive out the fascist regime and the nightmare they are hammering into place.

[3] **The people who hate and fear this whole fascist nightmare and direction must now ACT with great determination in the streets** – while organizing to move tens of thousands and soon millions to join them in the streets – with sustained determination until we **drive this fascist regime from power** in the name of humanity. This is why we are out here today and are calling on people to be in the streets with us on Saturday across this country to say:

***In the Name of Humanity,
The Trump/Pence Regime Must Go!***
