and the earth itself.

And... Enough of the Democratic Party's complicity on "border security," family separation and asylum seekers. High tech drones, sensors, satellites, enhanced fencing and more border patrol agents is their plan for keeping immigrants out. We also must reject this plan, since it also leads to atrocities and is complicit with Trump's program of ethnic cleansing. We need sustained, nationwide protests and a society-wide struggle to remove the fascist Trump-Pence regime. Making Trump's State of the Union an evening of #RefuseandReject can contribute to this.

No more relying on saviors to oust a fascist regime and of passivity rooted in illusion, of failed predictions this fascist regime will self-implode any day or be swept aside by those at the top of this society. No more of that! Fascism can come to power through the ballot box but fascism cannot be voted out – the people must drive it from power.

And... Enough already of the the numbing television news promoting these illusions – of couch-lock (passivity and quiescence) and the complicity of millions and millions – as a fascist horror unfolds daily and the Trump/Pence regime rapidly transforms society and government into an open terrorist dictatorship.

On Tuesday before, during, and after the State of the Union, get onto street corners... let's take history into our own hands. Let's drown them out and powerfully snatch the spotlight, with a massive and loud refusal and rejection of the entire fascist direction of this society and this world. In the name of humanity, THIS IS A CALL for a night of Refusal and Rejection of a Fascist America during Trump's State of the Union.

On the night of Trump's State of the Union, at 9:00 pm Eastern/8:00 pm Central/7:00 pm Mountain/6:00 pm Pacific Time: Get your friends, colleagues and neighbors together and let's get the hell onto the streets, in two's three's and hundreds, with posters, banners, projections, noise-makers (pots and pans and musical instruments...) expressing our REFUSAL to Accept a Fascist America.

Most importantly... let this night of Refusal and Rejection contribute to the time, in the not too distant future, when tens of thousands, in cities large and small, won't just protest for a day, or one night, but will come back out, day after day and night after night, growing out protest from thousands to millions, to the achieve the single, unifying objective of driving out the fascist Trump/Pence regime. The people of the world are counting on us.
