

**THIS FASCISM CANNOT BE STOPPED BY
RELYING ON DEMOCRATS, ELECTIONS, OR ROUTINIZED PROTEST**

Yet, to quote the *Call to Action* from RefuseFascism.org, “All too many people think and act as if what we face is just the worst of pendulum swings between Republicans and Democrats. NO! This regime if left in power will effect a thoroughly reactionary restructuring of society.” And the *Call to Action* goes on to say, “The Democratic Party leadership will NOT lead us out of this. They are about maintaining order for their whole set up. For them, order is more important than justice, even if that means the order of fascism.” Was this not driven home, *yet again*, when – despite their majority in the House – the Democratic Party just handed Trump \$4.6B in funding for his concentration camps and more? History has shown that appeasing and collaborating with fascism leads to ever-greater horrors. If you pour your hopes into “leaders” like this, who aid in the running of concentration camps, you become complicit with those crimes.

**THE CRISIS THEY HAVE NOT FACED YET: MASS, SUSTAINED,
PROTEST UNTIL THE REGIME IS DRIVEN FROM POWER**

The core of the regime pushed its agenda forward through one crisis after another... but there is one crisis they haven’t faced yet. In recent years, people in Algeria, South Korea, and right now in Hong Kong and Sudan, are demonstrating the liberating potential of massive, **sustained**, non-violent protest, showing the world how even entrenched tyrants can be forced from power. This is what must now happen here.

We are talking about a *different* kind of protest than we have yet seen in this country, where people go out in the streets for a day and then back to their regular lives as the horrors advance. Instead, what we need is protests that continue day after day and don’t stop, creating the kind of political situation in which the demand that the Trump/Pence regime be removed from power is met.

This is what we must be organizing and preparing for now. Anything less is complicity. No one can say they did not know.

Join Refuse Fascism in this great cause—bring to people everywhere the understanding that **nothing short of removing this whole illegitimate regime from power will stop this nightmare and organize them into** this movement.

Go to RefuseFascism.org, read and share the *Call to Action* at protests against Trump’s concentration camps and far beyond, and get organized to drive out the Trump/Pence regime.
