

**Trump has been impeached! A cause for celebration and increased determination. Now let's go all the way to drive Trump and the whole fascist regime from power.**

# **Join the #OUTNOW! Movement The Trump/Pence Regime Must Go NOW!**

***EVERY DAY THAT THE TRUMP/PENCE REGIME REMAINS IN POWER  
THREATENS THE FUTURE OF HUMANITY AND THE PLANET.***

**Everyone with a conscience must face this hard truth.  
But that alone is not enough—we must now ACT ON IT.**

**There is a way to remove this whole regime—the #OUTNOW  
Movement of sustained, non-violent protest that doesn't stop  
until the regime has been removed from power**

Donald Trump has been impeached in the House of Representatives, indicted on two charges of abuse of power and obstruction of Congress. For all of us who have looked on in horror as this regime's crimes escalate – children in cages, environmental protections shredded, violence threatened against political opponents, and more – it is a moment of celebration that at last this fascist criminal is getting a first taste of justice.

This is a real advance. With impeachment, we enter 2020, the fourth year of this hateful presidency, on new terrain. The terms have now changed, in a way that greatly heightens the potential for driving out the whole fascist Trump/Pence regime.

With a new surge of hope and energy, now is the time to seize the moment and join together, recognizing that only a determined struggle of thousands and then millions taking to the streets in continuing protests can create a crisis from below that could force this whole regime from power.

***Come to a mass organizing meetings to dig into and plan how to develop the week after week movement of sustained mass protests involving a broad diversity of people demanding Trump/Pence Out NOW!***

## **A great struggle still lies ahead. The stakes have been raised.**

The cracks and strains in our political class are more visible than ever. A Republican Party now well-hardened around its fascist core is in full standoff with a Democratic Party that felt compelled to take the momentous step of impeaching a President for only the third time in U.S. history. An impeachment trial is expected in the Senate in January to determine whether or not Trump will be removed from power. But Trump and with the fascist Republicans in lockstep are intensifying their threats and vowing not to convict him or have an impartial trial. The danger that impeachment *without* removal will leave intact a fascist regime – now full of vengeance and

more emboldened to drive forward with its program – has never been higher. And in the unlikely scenario that the Senate votes to convict Trump and remove him from office, the Christian fascist wing of the regime, led by Mike Pence, is poised to take over and hammer in their own theocratic vision of society, backed by the Bible taken literally.

**In January, as the impeachment of Trump roils in the U.S. Senate, a mass movement of the people demanding Trump/Pence #OutNow must grow... each week making advances and becoming a magnetic force of all who feel that life here and around the world will be unbearable under the fascism the Trump/Pence regime is rapidly imposing. We must follow the examples of millions all over the world carrying out mass struggle to demand regime change because they feel they cannot go on another day with what their rulers are doing.**

Don't we face a situation that demands this same level of determination? Can anyone dispute that the Trump/Pence regime poses a catastrophic danger to humanity?

Concentration camps on the border... environmental devastation accelerated... war, even nuclear war, casually threatened... white supremacist rule... fascist mobs and racist mass murderers... truth and science erased... the right to abortion near gone... the rule of law and democratic and civil rights stripped away... **THIS IS FASCISM UNFOLDING AND IN POWER.**

Our power is the power of the people acting with determination – not to protest one day and go home, but flood the streets, with people of many different points of view acting together, in sustained non-violent protest – starting in our hundreds, soon becoming thousands, and ultimately millions – refusing to stop until the whole Trump/ Pence regime has been removed from power.

Together, we must make January a month of struggle, building a broad based #OUTNOW! Movement to advance this great cause.
