### FASCISM IS UPON US

In January, the Trump Fascist Regime kidnapped the president of a sovereign nation and gunned down civilians in Minneapolis who dared to stand up against Trump's Gestapo terror.

Now Trump has started a war with Iran, already killing thousands, that is quickly escalating into a wider regional war and could lead to a world war between nuclear powers. We are at a tipping point of extreme danger to humanity and the planet.

This fascism is not weakening. In fact, the Republican Party and the MAGA movement is hardening around Trump's:

**lawless international aggression**

**genocidal white supremacy**

**unrelenting persecution of immigrants**

**threats against political opponents**

**and subversion by any means of the midterm elections, or any elections they don't win.**

Trump does not listen to Congress or the courts, even when they stop conciliating and put up any opposition. The midterms will not change that. We must NOT wait for an election that is already being neutered and could be canceled if this regime can justify it.

While you wait, the Trump regime is literally burning the planet and welcoming "Armageddon". They are fighting for a nightmare and lunatic vision of society and view of reality, with Trump as their savior. This madman cannot be allowed to have his finger on the nuclear button.

The Democratic Party is telling you that Trump's lunacy means we're winning, trying to channel your fear and outrage into the midterm elections. NO! Humanity is not winning.

But we CAN change this trajectory...if we wake up, if we change the game, if we fill the streets with nonviolent resistance, if we refuse with every ounce of our being to let this regime steal our future. For even a chance of a decent future, they must be driven from power.

This is not a time for demoralization and despair. Millions in the streets build the power of the people – not to accommodate and delusionally hope to slow down the regime until the next election – but to resist this fascism, face its repression with courage and conviction, and drive this regime from power through overwhelming noncompliance and nonviolent resistance. Unless and until the Trump fascists are removed from power, and their hold over the major institutions severed, their terror will continue.
