

TO EVEN THREATEN:

*"a whole civilization will die tonight,
never to come back again..."*

IS ITSELF A WAR CRIME, AND THE RAVINGS OF A FASCIST

TRUMP MUST GO NOW! MUST BECOME THE POLITICAL DEMAND OF MILLIONS

Fascism is not a looming threat. It is here. This is a time when we must focus on the real danger to the future of humanity and the planet—a fascist America. This is not a time for dead end Democratic Party midterm "affordability" politics - pitiful and immoral when the future of humanity and the planet is on the line with the advancing of a fascist regime set loose on the people here and around the world.

There is no living with Trump MAGA Fascism. But far too many people are. And that is as shameful as it is dangerous. In the face of genocide and fascism, this is complicity. Put simply, to stay home, to do nothing, to just post your outrage on social media and "like" the outrage of others is accepting the unacceptable.

There is One Demand **TRUMP MUST GO NOW!** that speaks to the urgent task before the people of this country. Anything less turns a blind eye to reality:

1. This regime is fascist through and through.

They have shredded the rule of law domestically and internationally. Masked gestapo agents continue to round up masses of people – shipping tens of thousands of our immigrant sisters and brothers into warehouse concentration camps in the US and into countries where these detainees have no ties. The rule of law, the right to dissent, and basic rights for women, people of color, and LGBT people are being wiped away. This regime has put the destruction of the environment on steroids.

2. Trump's war of aggression against Iran is criminal and must be stopped.

The streets of this country should be filled with protest at every murderous assault on the people of Iran. A ruler who threatens to wipe out a whole country and civilization, on top of war crimes already committed - with 20 universities, 600 schools, medical facilities and crucial infrastructure bombed in an illegal, illegitimate, and immoral war - cannot be allowed to remain in power another day. The current shaky ceasefire in Iran is being conducted under the sword of Trump's threat to "destroy a civilization." We cannot leave the fate of humanity to the whims of a lunatic fascist tyrant.

3. Relying on the Democratic Party or expecting the midterm elections to stop this fascism is a deadly delusion.

No thinking person should expect the tyrant who instigated, and then pardoned the January 6th insurrectionists, to respect any election he loses. Worse than just delusional, it is complicity in the continuing slaughter of the illegitimate war on Iran. Just ten months ago, Democratic Senate leader Chuck Schumer was calling Trump a chicken for not getting tough enough on Iran.

NO! THE TRUMP FASCIST REGIME MUST BE DRIVEN FROM POWER NOW!

The force that can defeat Trump fascism is millions of decent people rising in sustained, nonviolent resistance so powerful we create a political crisis that makes this regime unable to govern or hold power. This is possible. Get organized with **Refuse Fascism**.
