IN THE NAME OF HUMANITY, TRUMP MUST GO NOW! THE WORLD IS COUNTING ON US.

TRUMP IS A DANGER TO THE FUTURE OF HUMANITY— shredding basic rights, dismantling the rule of law, and driving humanity toward catastrophe.

This regime is fascist through and through. They have shredded the rule of law domestically and internationally. Masked gestapo agents continue to round up tens of thousands of our immigrant siblings into concentration camps. The rule of law, the right to dissent, voting rights, and the civil liberties of LGBTQ people, women, and people of color are being ripped away. This regime has put the destruction of the environment on steroids.

**Is this a country where Trump can do all this—and people live with it?
Or is this a country where millions refuse—and act to stop it?**

Millions feel the outrage and anguish. But that outrage is being funneled into dead ends: waiting for a savior from the Democratic Party, hoping for norms this regime has long set on fire, relying on the very institutions being hollowed out or remade in fascist form.

We must not wait for and rely on elections that the Trump Regime is moving to rig, steal or even cancel - with assistance from the Supreme Court.

The streets of this country have been far too quiet as humanity is held hostage by a fascist regime that is genocidal and that is every day bolting into place a white supremacist, theocratic, patriarchal, immigrant-bashing, science-denying, fascist America.

Every day of business as usual normalizes this and clears the path for greater horrors. To stay home, stay silent, or limit your outrage to social media is to accept the unacceptable.
