The Trump/Pence regime is a *fascist* regime.

- What is fascism?
- Why does it matter to identify the Trump/Pence regime as fascist?
- How does fascism affect people's lives in the U.S. and around the world?
- Should we struggle to win elections in 2018 or is that too late?

What is the danger?

- With nuclear capability, this regime is more dangerous than even Hitler.
- It is consolidating power that undermines people's ability to protest & resist.
- It is eroding civil liberties and voting rights and permitting police terror, especially against ethnic and religious minorities.
- It is deporting immigrants and separating families.
- It is depriving women of reproductive freedom.
- It is unleashing fascist violence against all who oppose its agenda.
- It is destroying the environment.

This regime must be driven from power before it is too late.
Join a movement of millions of people to drive out the Trump/Pence regime!
